EMERY CANYON QUARRY

RE: **Amendment to Georgia-Pacific San Rafael Quarry**
(M/015/050 Emery County, UT)

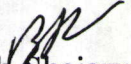

Dear Mr. Simmons:

As we discussed on the phone the first part of this month, Georgia-Pacific is requesting to expand their quarry area from 20 acres to 34 acres. We have already filed a bond with the state of Utah to cover 34 acres.

We are requesting this change due to increased gypsum rock demand for industrial gypsum product and also we are planning to start our wallboard plant by the first of August, 1995. With increased industrial plaster, business and production of wallboard our rock demand will be over 120,000 tons per year.

Within the next 6-12 months we are planning to take an aerial photo of our quarry area. We will mail you a copy of that.

Sincerely,

Bob Shajary
Plant Manager
